Subject: Marking scheme change on former Nitronex products

PCN #: PCN-00735

Dear Valued Customer,

Please accept this letter as formal notification that marking scheme on a group of former Nitronex products has been changed.

This change is the reflection of Nitronex being acquired by MACOM recently and has become necessary for a unified marking scheme across MACOM's RF power device product line. Please note that this change is effective immediately in product specifications, drawings and/or SCDs.

The change in the marking scheme will have no effect in products' form, fit, function, or reliability.

You are receiving this notification because you have purchased one or more of the subject parts within the past two years.

Should you have any questions or concerns in respect to this change please do not hesitate to contact me immediately for discussion.

Sincerely,

Zhuyi Wang
Principal Quality Assurance Engineer
M/A-COM Technology Solutions, Inc.
